Dear MM. Mark Conlon:
Eric Davis:
Michael Moriarty:

We would like to take a few moments of your time to express in writing our appreciation for the excellent oil clean up problem that was professionally handled by the GWS team. In particular, three of the GWS team members are to be commended for their outstanding and praise worthy abilities. They are Gary, John, and Ray.

Gary, John, and Ray were always friendly, helpful, and courteous. They answered any and all of our questions at any time, kept the work area safe, and made us feel comfortable during the entire cleanup process. They went beyond their normal work day hours many times to make sure everything was safe. They came during the weekends, the fourth of July holiday, and when we had the record setting rainstorm. During the rainstorm, John and Gary came back, in the evening, and worked several more hours to ensure that the severe rainfall would not undermine our foundation.

We highly recommend the GWS team, particularly: Gary, John, and Ray. They are a credit to the GWS company and it's image. We are certain that, having employees this exemplary, your future clients will be as pleased as we have been.

Thank you again and God Bless,

Edward & Deborah Swantek
