Mr. Gary Schurig
GWS Contractors
150 Fresh Pond Road
Jamesburg - NJ

Mr. Gary Schurig

Here again, and reiterating my letter of August 3rd, 1999, I come to you to renovate my vote of profound gratitude for the ability in which the massive oil clean up has been so professional and efficiently conducted, at my house in Shrewsbury, New Jersey.

I want to thank you personally Mr. Schurig and your crew members for the way they conducted this all project.

I wish I could be in position to offer more than a simple letter of thankfulness to each one of your team, for the friendly and courteous manner that they have conducted themselves, and the way they made us feel comfortable during this long project. They always made us feel free to talk, ask questions and they were always at any time ready to solve problems that occurred during the all process.

They did more than we expected and they did it in the most knowledgeable way.

We were also very pleased, impressed by the human relationship shown by every member of your team.

In this instance I would like to mention by name everyone of them. So many it would be an impossible task. Unfairly I would leave some of them out.

Colin, Dennis, Bill, Ricardo, Eric, Todd, Art, Ian, Pedro, Scott, Manuel, the all driveway crew, Fernando, Antonio, Sue, and ask forgiveness for the one's I missed.

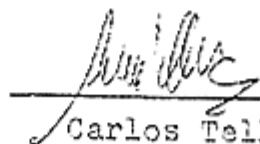

All of you have been absolutely fantastic, including the members of Waste Concepts for a job well done.

Again, if I can be of any help, feel free to give my name as a reference as a proof of an honest, reliable and professional Company. I will be willing to offer my word for it, and at any time and circumstance, be willing to recommend to anyone, GWS as a contractor for such difficult projects.

I am truly greatfull to you Mr. Schurig, to GWS, All State, Mr. Conlon and the members of your team.

Thank you very much

Sincerelly yours

Carlos Tellechea
